### JURY SAYS IT WAS A FORGERY

ON NOTE OF C. H. BEAMER

Verdict Was Reached After Trial Lasting a Week about Noon Last Wednesday.

hour, the jury in the case of the First National Bank of Gettysburg vs. Noah R. Beamer, brought in a verdict for the defendant. The verdict necessarily meant that in the opinion of the jury the name of Noah R. Beamer on the note of C. H. Beamer was not his genuine signature, but was a forgery.

Wm. Hersh, Esq., and C. W. Sheely, Esq., after the close of the testimony on Tuesday morning, argued the case of the defendant to the jury and S. S. Neely, Esq., made the argument for the plaintiff in the afternoon, and on Wednesday morning the court charged

The result was largely the expected one and due in part to the many rumors that were believed but could not be properly offered in evidence. County Commissioner elect J. Andrew Kane while on the witness stand said his name had been forged by C. H. Beamer to a note and that it was blunderingly done, that his initials, J. A., were reversed to A. J., and when he had got on to it the note had been quickly paid. Things of that kind led many to expect the verdict the jury arrived at. The plaintiff made a motion for a new trial.

The case of the First National Bank or Gettysburg vs. Noah R. Beamer and Wilson Beamer, administrator of Calvin Beamer, and George Heller, was discontinued upon the conclusion in the former case.

The next case in which a jury was drawn was that of S. Elizabeth Thomas vs. Henry A. Deardorff, being an acdon for damages for an alleged breach of promise to marry. The plaintiff knocked her own case out of court for she would not answer all the questions put to her by her own counsel, nor those asked on cross-examination, and the court was unable to get her to make answer to questions asked by the court. The result was that upon the conclusion of her testimony, the court directed the jury to bring in a verdict for the defendant. W. C. Sheely, Esq., for plaintiff, Wm. Hersh, Esq., for defendant.

Lovina M. Kepner, claimant, vs. C. J. Spalding. Agt., was a sheriff's interpleader. Personal property had been levied upon as the property of Benjamin F. Kepner for the satisfaction of the judgment of C. J. Spalding, Agt. Lovina M. Kepner, wife of Benjamin Kepner, claimed that the property levied upon was her property and not that of her husband, and presented such satisfactory evidence that made the case a short one and jury found a verdict for the plaintiff. J. L. Williams, Esq., for plaintiff and W. C. Sheely, Esq., for defendant.

A jury was then called in the case of Henry E. Nace, claimant, vs. John S. Low and Lewis E. Martin, being a sheriff's interpelader. A cash register and some other articles about the Sunday Hotel in East Berlin had been levied upon as the property of Lewis E. Martin and plaintiff claimed them and the question of fact whether they had been bought from owner of hotel and went along with it from a previous proprietor seemed to resolve itself in favor of the former proposition and jury brought in a verdict for the plaintiff. A motion for a new trial was made. C. S. Duncan, Esq., for plaintiff and W. C. Sheely, Esq., for defend-

The case of Mary R. Delap vs. J. H Brubaker was begun but before the evidence was concluded was amicably settled. The defendant had sold a battlefield wagon to the plaintiff and taken her note for the same. Afterwards he borrows the wagon and keeps it and plaintiff begins action of replevin. The case started Thursday afternoon and but two witnesses were line has already been improved by the heard, the plaintiff and Andrew Miles, erection of a number of new poles. a colored citizen of this place. turkey is placed in a bath of ice water key becoming tainted if undrawn. If drawn the air quickly drys the body Theodore McAllister and Samuel D. tains. After the ice water bath feet goes into a barrel ready to be shipped by express.

New York City is the largest consumer of the turkeys from this place, almost the entire shipment having been sent there. The farmers were compelled to sell their turkeys at a very low price. When the market opened the price was 14 cents but it instantly fell to 11 cents and stayed W. J. McCleaf and Maggie Benchoff there. As a result less Thanksgiving were allowed to draw out of court turkeys were shipped from this place than usual, the farmers holding their flocks for a better price at Christmas. The turkcys were light in weight, the warm autumn not being helpful to the

fattening process. The Hanover Produce Company bought, cleaned and shipped 1,127 turkeys weighing 12,886 nounds.

B. F. Lightner bought, cleaned and shipped 977 turkeys weighing 12,983 nounds.

The total was nearly thirteen tons. The Thanksgiving dinner will not be complete without the pumpkin pie and of course one must have a good variety to get a good pie and then after a long and gentle stew of the pumpkin comes the mixing with the other ingredients.

To each cupful of pulp add two well beaten eggs, half a cupful of sugar, a tablespoonful of cornstarch, dissolved in a cupful of cream, half a teaspoonteaspoonful of lemon extract: add a large tablespoonful of melted butter and fill the paste full with this mixture. Bake brown iu a moderate oven

The first speaker was Dr. Schmucker who gave a most interesting talk on The Man in the Moon,"

Intellectually we know that the

world is round, practically it is to us flat. As evidence of this we insist that the sun rises in the East and sets in the West. In order to realize the world as a ball we must sense the world as a world in space. First the children must learn to see the moon phases of the moon on the blackboard. but he showed how it can be done by using one's fist at arm's length for the moon and head for the sun. To make the child feel that the moon is like the is not the slightest danger of the tur- les of the valley, tied with white tulle. ing nearly six months guarding the of Showers," the left "Sea of Seren-The maid of honor, Miss Eckert, bridges between York and Baltimore, ity," the mouth "Sea of Clouds," the wore white messaline, cut en princess, the Eighty Seventh regiment was sent left ear "Sea of Tranquility," the nostrils "Volcano of Calpurnica," another volcano above the ear called 'Crisis" and another on the chin. There is no water or atmosphere in the moon, and the vegetation is like the green scum on bricks. The temception was held at the home of the Corps, and served with distinction in perature ranges from the boiling point are accounted for by the fact that they were swung off of Asia with Bering Sea as the centre. After this intensely interesting talk several questions were asked the speaker which he clearly

### How to Teach a Great Poem.

explained.

Dr. Chas. Miller, Luna, Ohio, instructing the teachers on "How to Teach a Great Poem," said they are apt to pass over the poem too rapidly. for instance in the "Chambered Nautulus," (). W. Holmes, take the word stren. It is not sufficient that only the definition of the word be given. but the story of Ulysses should be told. Edgar Allen Poe is the most widely known American poet. France and Spain know no other poet. He disabused!the teachers of the idea that "The Raven" was written after three days of arunkenness. Analyzing the poem Dr. Miller showed clearly that it was a flash of genius, that Poe worked it out with the precision of a man solving a problem. He wanted to write a poem that would appeal to all classes, hence he chose a melancholy theme, the most beautiful of all deaths, that Marks Bream, and Frederick English Lew Wallace, the famous author and of a beautiful young woman mourned of Carlisle street. The boys are about soldier, commanded the Union troops by her lover. The heroine he named for the one who took the place of his mother. The student was his boyhood's friend. The raven was selected as a bird indicative of foreboding. The philosophy of the poem is the student's disbelief in the raven's answer, and his belief in the happy meeting in the world beyond.

Dr. Gordmier's subject, "The Recitation" was one that appealed to every teacher. The tecitation shows the teacher. Before he comes to class the instructor must have a knowledge of the subject matter in and out of the book and must know how to present it. The conditions of the room, appargram were all discussed. The manner of conducting the recitation should General Grant in his own book says be varied, and teachers should learn

### Tuesday Afternoon.

Dr. Miller occupied the first period. His subject was, "This Busy World of Ours." The 19th century was a century of iron, steal, steam and electricity. The 20th century is a century of more than that, it is a century of power, of the power of the intellect. The rapidity of travel is annihilating space. As a picture of power he mentioned the vessel going against the the head. We can easily retain things San Francisco, and but 16 hrs. from tain we must think, feel, do. Things reasonable.

Every one is a worshipper of power, the power of oratory, music, architec-

The teacher to produce power in pupils must keep abreast of the times. ### Art of Memory.

Dr. King was greeted with enthusiasm. His subject was the "Art of; Memory." The difference between a take no other. science and an art was clearly set forth. We all have good memories, but we are not always able to remember just what we want. The inventor of the lead pencil injured the memory. There are some things that are better for writing, such as diagrams, some names and dates. Emotional things need not be set down. We remember things of the heart better than those of taught mechanically give no pleasure write for Catalogue. and are easily forgotten. First of all find the meaning and then don't repeat without reflection. There are Western Maryland R.R. different ways of reading, reading to retain, and reading for rest and for recreation : each has its value.

### Indestructibility.

After a song Dr. Schmucker gave a serious talk, explaining by means of underlying modern physics, and mod-

### South America.

For a few minutes the hall rang with the voices of a large assemblage, then Dr. Miller gave a most practical and interesting instruction on "South America, the Land of the Twentieth Century." Some time ago a delegation of business men from South America met in North America with men from all quarters of the globe for commercial purposes. The leading speaker was from Buenos Avres, and he said: "Gentlemen, the 19th century belonged to the United States, the 20th century belongs to South America." The commercial interests of South America have shown their intention prophecied that the United States will fense of Venezuela. United States of Venezuela during Cleveland's administration and the present one were commented upon and the attitude assumed by the Presidents in each case approved. Argentine Republic is the the only rival of the United States in go bang. The Lincoln Roadway is an tor as well as a great novelist, though the market of hides. Its enormous unanswerable fact that should com- this may not be generally recognized, production of hides and meats is due pei that roadway to come in flouch It is proved however by his treatment to its superb pasturage. The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was almed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most valuerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing hope to the public a parallel fact; that home to the public a parallel fact; that the stomack is the most vulnerable organ out of the price ring as well as in it. We protect bur hearts, throats, feet and lungs, but the standard we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and im-

dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R.V. Pierce, Buffalo, N. Y. This booklet gives all the tablets. Trial size | Ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 onecent stamps, or cloth-bound for 31 stamps.

Address Dr. Pierce as above.

# BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by.

When strength is full and spirits high we are being refreshed -bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood is food, to keep the blood rich. When it fails, take

### The Needs of the Teacher.

Dr. King speaking on "The Needs and the manner in which the bee ex- of the Teacher" gave a scene from Auron Burr and denounce Alexander tracts the nectar and makes honey ex. King Lear to emphasize the difference plained. The last number was "Lit- between "need" and "want."

teacher needs patience, education, health, growth, life itself. The hand rapresents the mind and the soul. The five fingers represent the five senses: thumb, bearing; fore-finger, sight; middle finger, touch; the ring finger, smell; and the little linger, taste. This was all proved by many amusing illustrations. Something is wrong when children drop out of school before completing the course. The teacher must reach out his hand to the pupil and fan hope into a beautiful flame of glory.

### Russia the Sleeping Giant. Dr. Miller gave a practical lesson in

geography under the beading, 'Rus-

sia, the Sieeping Giant." Its area is 8,000,000 square miles, with a population of 130,000,000 people or 13 to the s quare mile. United States has an area in all of 4,000,000 square miles and a population of 80,000,000 or 23 to square mile Japan's population is 287 people to the square mile. Russia is a sleeping giant on account of the population alone. Russia produces and exports large quantities of wheat. The Russians live chiefly on rye bread. The forests are undeveloped. The steppe region and its nomadic tribes were touched upon. The black land has a soil from 6 to 5 feet deep and has produced for more than 2,000 years. Here timothy and corn grow higher than a man on horse back. When Alexandria was queen of the Mediterranean it was sustained by crops from this region. Stock raising is a great industry here and most of beef and mutton tailow candles are manufactured to be used by the many Catholics there and to be sent to India. The plan of fare on the great Siberian R. R. is like our street car method. Oil has been found in the Ural Mountains and controlled by has a library containing one volume for every inhabitant of the city. If the sleeping glant be nuce awakened it will become a great world power? picture of the terms of peace at close of Russian Japanese war. Before adjournment Mrs. Philip Houck, Gettysburg, in a three minutes talk extended to the teachers of Adams Co. greetings from the W. C. T. U. The greetings were accepted on the part of the teachers by Supt. Roth.

### Friday Afternoon. "God Be With You Till We Meet

Again" was well rendered, and Dr. Schmucker took up the first number on the program. "What Next?" In it was a great message for every teachfaithful work. If one puts his best efforts into his work his services will be sought. The pedagogues were told that sometime between now and Monday morning to write on one page the name of King, on another Miller, and on a third Schmucker; to look at each Whereas, God in His infinite wis- metic, but boys and girls, and are you will have the new aspect of teach-

### Resolutions Adopted.

before long take her place in the ranks of the profession which she has so ably adorned. Resolved, That we extend the thanks of the Institute to the ministers of the town, to the College Glee Club, and to all others who in any

way contributed to the success of the Resolved. That the teachers of this Institute extend to our efficient and able Superintendent, H. Milton Roth, our sincere and heart-felt thanks for his untiring efforts to promote the

cause of education, for the excellent corps of instructors, lecturers and entertainers, and the successful management of the County Institute. G. ALLEN YOHE.

### Heart Power in Teaching. Dr. Miller used much energy in con-

vincing the teachers that the world

has been uplifted and ennobled more by heart power than by intellectual power. The strongest word in the | English language is sympathy, Henry Drummonds in one of his great works says love is the greatest thing in the world. Sympathy embraces love. As an illustration of sympathy Dr. Miller said when a country says, "I have sympathy with that cause," iron bar or stone walls can not stop it. A personal experience with an unruly boy 842 59 was narrated. This boy was both the foregoing account and find it core through sympaths, was belied through the high school and worked his way to a college diploma. The 'speaks of all great men and women comes through some touch of human power. Nothing on stee the plow of sympathy and love nor measure the good it will produce. The country is in need of strong men, honest brave and carnest, and it is the duty of the teachers to produce them Dr. Miller then hade the teachers a graceful farewell.

Prof. Roth in a few words thanked friends for the attendance and atten-

### The Doctor's First Question "How are your bowels?" This is generally the first ques-

tion the doctor asks. He knows what a sluggish liver means. He knows what a long list of distressing com-plaints result from constipation. He knows that headaches, bilious attacks, indigestion, impure blood, and general debility are often promptly relieved by a good liver pill. We wish you would talk with your own doctor about this subject. Ask him at the same time if he approves of Ayer's Pills. Do as he says. J.C. Ayer Co., Lowell, Mass.

MIXITATHOME BY SHAKING INGREDIENTS IN BOTTLE

Merriman, Rev. John Keller Plitt, Hundreds of People in Vicinity Here Will Welcome This Advice, Says Local Druggist.

> What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for backache or kidney or bladder derangement, if taken before the stage of Bright's disease.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime,

A well known druggist here at

home, when asked regarding this pre-

scription, stated that when the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescript on is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial

### DIVIDEND NOTICE

THE President and Directors of the "First National Bank of Gettysburg." have declared a semi-annual dividend of 4 per cent., clear of all taxes, and an extra dividend of 2 per cent., payable on and after Monday, November 11.

S. M. BUSHMAN, Cashier.

At Last Another "Garden of Aliah"

# A Spirit in Prison

A New Novel by ROBERT HICHENS

Here is, at last, another "Garden of Allah" -a book with all the atmospheric power of Hichen's great masterpiece. A SPIRIT IN PRISON is a new wonder work with the charm of a fresh, new story. The scene is Italy. Human love is as sunny as its skies, and the bursts of passion are like the sudden storms that break over its blue lakes. Italy's people, its shores and islands, are brought to all but sight and sound in these pages. The love story involves an English woman, her husband and her daughter in a gripping way.

### Woman's Curiosity.

"Woman's currosity," said Mr Fletcher, " a quality of mind beyond human understanding

"Yes," said Mrs. Parchet "What made you think of that?"

"The foot sections of a woman that I ▶m dewns wn tody. She followed a man ten blocke jest to get to read a regard that a is resterred to his back She sported from at Thirty fourth street. Ther was really the end of her? trip I made that out from comothing; she said to prother woman who was she cought sight of that flaming red poster fiel to the man's back her effriosity got the better of her and she set out after him. He led her quite a chase across town and downtown and back again, but she never weakened. She tagged faithfully along in his wake, and healty she got close enough to read that notice "

Mrs. Therefore reflected a moment. "What did a say?" she asked. "It ralvised her to get her teeth pull ré **so**mewhere on Sixth evenue."

Mrs. Pletcher thought again. Where were yet all the time she e as trying to find that out?"

"Met" and Pletcher, "Oh, I was following the coman. I wanted to see a she anally enough up with the man." - New York Times.

### The Porcelain Secret.

The parcelain industry of Germany is comparatively young, says the Reglin Morgen Post, and its development visrapid. Although it is generally believe: that the Chinese kept their proces of of manufacture secret. Julian's translations of their voluminous encyclopedia ehow that this is not true. All who could have read the work might have known also the porcelain secret. For evidently no German fathemed the recchanical mystery until the apotherar, is apprentice Boetigar, 200 years ago made the first German percelain at Firesden. Some years before he had attracted attention by proclaiming the psenver, of a method of changing have rictal into gold. King Frederick I. gas a bit a orders for the preciometal, which the sixteen-year-old in centor could not execute, and in feat he fled to Dresdon and became a sucrect of King August the Strong. While · According to make gold he discover of the porclain secret and inscribed his deer these "Into a poster was ranged by Aladghty God a man whe Hought he could make gold."

### Her Limitations.

These planes look too cheap," said the young woman, her brows contractbg slightly. "Show me some of the lest you've got."

"Yes, undark," said the salesman "May I ask how high you care to go?" 'Me? Oh, I only go to G, but I want the with all the octaves just the rame."-Chicago Tribune.

GENERAL TYPEWRITER EXCHANGE 21 MURRAY ST., NEW YORK.

Odd Contrasis In Climate. New York is usually thought of as

being directly west from London. It is, however, despite its far more rigorous climate, 900 miles nearer the equater than is the British capital. The bleak coast of Ladrador is directly We fief London. The same line paste. tle cuthern part of Hudson bay and Lake Winnipeg. On the other side of the continent it touches the southern e tiersity of Alaska and continue.  $\Omega_{0}$  is a the center of the isthmum  $\Omega_{0}$ K - , batka and Siberia and Russia te

 $-\mathrm{lt}$  is astonishing, too, to reflect on the fact that Montreal, with its winters of extraordinary severity, is DC miles nearer the equator than is Lenlon. Montreal, indeed, is on the same degree of latitude as Venice,

Another illustration of the unexpect ed in contrasts is found in a compret son of St. John's, Newfoundland, with Paris. Paris has a winter of compara live mildness, while St. John's is a region of bitter cold and fogs, with drifting icebergs along its coast. Yet St. John's is 100 miles nearer the equator -New York Tribune.

### Fasting In Japan.

From time out of mind, says the Ja pun Times, certain devotees of that country have visited a celebrated temple at Navita twice a year to perform the pious act of fasting within its sa cred precincts. A "fasting hall" has been specially exected for their accommolation. Observations kept on 225 men and 32 women who fasted showed that of the whole number 59 fasted less than a week, 174 fasted one week, 19 continued fasting two weeks, 14 fasted three weeks, and one went without food for five weeks. Inquiry as to the motives of the fasters showed that 139 men and 25 women desired to rise in the world, 13 men and 2 women wanted to increase their business profits, 16 men prayed for the safety of their families, 13 metrand 4 women sought cures of diseases and 10 men wanted general good luck. Only three persons, two men and one woman, fasted in gratitude for the inifillment of former party ers. "It need scarcely be said," re marks the Japan Times, "that the peri od of their fasting was the shortest."

### Snowball Showers.

More than one explorer in cold climates has noted the curious pheatome non of a "snowball shower." The balls it is true, are not very big, the aver age being about the size of a ben's egg, but they are true snowballs for all that cotapressed globes of snow not little lumps of ice or ball. A fall of the kind occurred in north London in March, 1850, and at the time it was observed that the balls seemed five times as dense and compressed as ordinary snow and in no way to be told from the usual handmade missiles. They had fallen during the night and were strewn many layers thick over a very large area. No cause-except a doubtful electrical one-can be ascribed for the strange phenomenon, and mountaineers are apt to discredit the stories of snowball showers told them by the old guides till suddenly in the midst of an ordinary storm they find themselves assailed as though by myriads of mischievous schoolboys. London Standard.

### A Patient Judge.

A western judge, sitting in chainbers, seeing from the piles of paper in the lawyers' hands that the fircase was likely to be hotly contests. asked, "What is the amount in quetion?" "Two dollars," said the bltiff's counsel. "The pay it." sold the judge, handing over the money. "Calthe next case."

He had not the patience of Sir W liam Grant, who, after listening for two days to the arguments of contesas to the construction of a certain act, quietly observed when they but done, "That act has been repealed." --Argelent

## Why They Were Generous

By M. MORROE JAMES.

Copyright, 1968, by American Press. Association.

In 15 I was invited to make a Memorial day address in my native town of Eastport. When the exercises were over I wandered among the tombs, watching the friends who were bestowing fragrant tokens of remembrance over the askes of their

was literally covered with choice swer, flowers when my friend C. joined me. "Those people are generous," I said, pointing to the flower strewn grave and indicating a gentieman and lady who had just left it.

"They have reason to be," he an Swered.

That evening he told me the story; For a time it was difficult to facwhich of the rivals for the hand of Cora Dixon would carry off the price. for she seemed equally gracious to Fred Nevius and Geoffrey Burns.

There was one intensely interested special ir, who, had the question been left for her decision, would have setthat it easily. To Cora's mother money was the key to all things desirable. and as Burns had an abundance of the commodity, while Nevlus was but indifferently provided, she wondered

at her daughter's indecision. But Cora was unlike her mother and when the supreme test came is her she did not let the superior financial advantages of one lover outweich the fact that her heart had gone is a the keeping of the other.

Scarcely had the story of Fred's good fortune become known when the town was startled by strange news. The lover had forged his employer's name and had fied.

While the matter was being discussed elsewhere Cora was reading with fear wet eyes and agony of soul a letfer from her accused lover:

for away was a fide not from. Pate is as first met bot, as there is a God in heaven, I did not do the thing they charge. against me. I shall love you riways, but of course you are free from any promise to the Unions I can clear has name in shall never return. I trust you will be-Here is though I were it the world will
